

ANSEN Corporation

Electronics and Mechanical Manufacturing Solutions

With our continuous improvement driven matrix and years of manufacturing and management experience within various industries, Ansen has the knowledge and expertise to develop comprehensive and flexible processes to quickly become a more cost-efficient extension of our customers' manufacturing operations.

Manufacturing Services:

- Quick-Turn Prototyping
- Design for Manufacturability
- Design for Test
- Medical Device Manufacturing
- Global Material procurement
- Inventory Management
- PCB Assembly
- Potting & Conformal Coating
- X-Ray Inspection
- AOI Testing
- Traceability Management
- Systems Integration
- Cleanrooms
- Mechanical Assembly
- In-circuit test development
- Boundary Scan
- Functional test development
- Build/Configure to Order
- Freight Management
- Repair Depot Services
- In-house certified trainers

- ISO 9001-2008 Registration
- ISO 13485:2003 Registration

- Lead-free, RoHS Compliant
- Legacy Manufacturing Processes

Locations:

New York Factory
100 Chimney Point Drive
Ogdensburg, N.Y. 13669
(102,000 Sq. Ft.)

ANSEN Corporation

Electronics and Mechanical Manufacturing Solutions

Conformal Coating

- Automated Equipment
- Humiseal 1B73 Acrylic
- Humiseal 1A33 Urethane
- Trained Staff
- In-house tooling
- 10-14 days for production

Prototyping — PCBA and Product Builds

- Quick turn controlled environment
- 5, 10 Days, 24 hour services available
- Flexible SMT platforms for faster changeovers
- Material Procurement Services
- Experienced Engineering and DFM support

Process Stabilization and Refinement

- Process Qualification Runs
- Risk Analysis Evaluations
- New Product Introduction Processes (NPI)
- Design verification in a live Production Environment
- Design for Manufacturability
- Design for Test
- Design for Assembly

Other Value-Added Services

- Repair Depot Services
- Logistics and Freight Management
- Refurbishment, Retrofit and Upgrades
- Order Management Programs
- Electromechanical Assembly
- Product Packaging
- Distribution
